

REACH Declaration

LMC COUPLINGS NV has a lasting commitment to sustainable development. We subscribe to the objectives of the REACH Regulation (EC) 1907/2006 and the RoHS Directive (EC) 2002/95, (EU) 2011/65 and (EU) 2015/863, as it aims to maximize transparency of information and to minimize the use of harmful substances. The goal is to enhance both human health and the environment.

LMC COUPLINGS NV predominantly manages the supply of finished articles and as such we have identified our compliance responsibilities to be those of Distributor, Importer and Downstream User. All necessary actions to ensure compliance within our supply chain have been taken.

- LMC COUPLINGS NV maintains extensive contact with its suppliers to ensure that any necessary registration and classification of substances has been done.
- LMC COUPLINGS NV is working with the production facilities and suppliers to ensure that all articles will remain available throughout the entire REACH implementation.
- If, in the future, any substances used in LMC COUPLINGS NV products are added to the Substances of Very High Concern list (SVHC), to the Registry of Intentions, we will make sure that appropriate substitution of that substance is made with immediate effect.
- Information about the potential use of any hazardous substances in our articles will be transparent and readily available.

Overview of compliance specifically to the separate phases in the REACH process:

Registration

Where necessary, the appropriate producers upstream in the supply chain have registered substances used in the production of the articles.

Evaluation

Registered substances have been, or will be evaluated for all regular or known uses, as described in their technical registration dossiers. Evaluation is done according to REACH guidance documents.

Authorization

The articles in LMC COUPLINGS NV portfolio with a delivery date later than 1st of January, 2011, do not contain any substances on the SVHC Authorization List as available on the ECHA website.¹

Chemicals

Restrictions:

The LMC COUPLINGS NV portfolio contains only industrial products.

The articles in LMC COUPLINGS NV portfolio with a delivery date later than 1st of January, 2011 do not contain any existing restricted or banned substances, according to Annex XVII of EC1907/2006. Furthermore they do not contain substances on the "Restrictions Under Consideration" list.

Candidate list:

With all available information the articles have been cross-evaluated against the Candidate List of "Substances of Very High Concern"³, as listed on the ECHA website. To the best of LMC COUPLINGS NV knowledge, no presence of SVHCs has been identified

Please note that this statement is valid for all standard industrial products in LMC COUPLINGS NV portfolio at date of issue. For auxiliary articles, additional information may be available. In these cases, LMC COUPLINGS NV will communicate all available and necessary information to you ad hoc.
